Check for short between Line &amp; Neutral, Neutral &amp; Earth, Line &amp; Earth : OK (100M Ohm)

| SL. No. | Test Performed                         | Specified | Actual                 |
|---------|----------------------------------------|-----------|------------------------|
| 1.      | Input Supply Voltage (+/-10%)          |           |                        |
| 2.      | Derived DC Voltages (+/-5%)            |           |                        |
| 3.      | Display and Keypad Functionality       |           |                        |
| 4.      | Belt Load as specified in G.A. or MPL  | 277.8     | 277.8 277.8 277.8 Kg/m |
| 5.      | Belt Speed as specified in G.A. or MPL | 1.00      | 1.00 1.00 1.00 m/s     |
| 6.      | Number of PF Contacts                  |           |                        |
| 7.      | Communication Output (Specify)         |           |                        |
| 8.      | Analog Output (Specify number)         |           |                        |
| 9.      | Wiring, TB and Component Layout        |           |                        |

Resolution: L: 0.1 kg/m S: 0.01 m/s r: 1 tph t: 0.1 tonnes

Measurement to be done from 0 to 110% of the Belt Scale capacity.

| Load on Load cell Kg/Mv | Belt load Kg/m | Speed in m/s | Rate in tph | Totalizer in Tones (6 min) | O/p current mA |
|-------------------------|----------------|--------------|-------------|----------------------------|----------------|
|                         |                |              |             |                            |                |
|                         |                |              |             |                            |                |
|                         |                |              |             |                            |                |
|                         |                |              |             |                            |                |
